Other Learning Needs:

1. Really needed to allow internet access to our presenters.
2.
3.
4.
5.
6.
7.

* No comments on the rest of the evaluations.

Comments:

1. I can use this to benefit my students.
2. This was a wonderful workshop that put everything that I have known or learned into a useable format that I can refer to in my practice. The workshop validated my work and made me feel validated in my work.
3. You forgot to include a welcome to adoptees/former foster youth! (slide #2)
4. Table in the conference room would have allowed participants to take notes rather than write on their lap.
5. Tables would be great for taking notes or notes on laptops.
6. Your willingness to share your slides, links, notes, ect. is generous and important for review. That way I'll be able to review to solidify knowledge. Please encourage your fellow presenters to do the same.
7. *[To explain rating of 3 for #4c]: Only due to internet problem. * Loved how she showed us how she honored confidentiality in her session clips by stating how she obtained permissions, what the permissions were for and how she was able to really show her appreciation to these clients – it was a model of attachment therapy at work and nice to see in combination with academia. * Maybe less focus on attachment theory and more on best practices but very effective and good for beginning or entry level clinicians.

* No comments on the rest of the evaluations.
